

Press release FOR IMMEDIATE RELEASE

OW2 Launches Beta-Testing Campaign for IoT Application Enablement Platform CHOReVOLUTION and Announces Next Hands-On Workshop

IT professionals are invited to download the ready-to-go virtual machine of CHOReVOLUTION, and provide feedback for a chance to win a WiFi-camera-equipped drone.

Paris, November 27, 2017 - [OW2](#), the global community for open source infrastructure software, announces the launch of **CHOReVOLUTION beta-testing campaign**. IT professionals are invited to download the virtual machine, fill in the feedback questionnaire and they might win a WiFi-camera-equipped drone!

The download link is at <https://l.ow2.org/cpvm>

The CHOReVOLUTION platform is a new Integrated Development and Runtime Environment (IDRE) for creating innovative distributed applications integrating things and services. It incorporates the latest in EU-funded research on service choreographies, execution middleware and cloud deployment.

CHOReVOLUTION makes possible IoT-enabled applications that create value in complex and fast changing business contexts such as Smart Mobility, Smart Cities, Smart Retail, Industry 4.0, etc.

The [beta-testing campaign](#) will continue until **Jan. 31, 2018**. Software professionals can now download the CHOReVOLUTION virtual machine which comes ready to go with a Debian distribution and the full platform. They will be guided step by step through their first "Hello world" CHOReVOLUTION application, a scalable, secured distributed eCommerce application. They are then invited to provide feed-back on a [short questionnaire](#) for a chance to win a WiFi-camera-equipped drone.

A hands-on workshop is organised at Paris Open Source Summit to support this beta-testing campaign. The CHOReVOLUTION development team will provide hands-on tutorial and demonstrations and guide participants through their first developments. This workshop is to take place **December 6th, 2017, in room Piteau 1**. Seating is limited and will be provided on a first come, first served basis, through this [online registration](#).

About CHOReVOLUTION

CHOReVOLUTION is an IDRE for innovative large-scale, IoT-enabled, service-oriented distributed applications. The project is developed by a consortium of eight partners and has received funding from the European Union's Horizon 2020 research and innovation programme. The CHOReVOLUTION software is publicly available through the OW2 community. More: <http://www.chorevolution.eu/>

About OW2

OW2 is an independent community dedicated to developing open source code OW2 is an independent industry community dedicated to developing open source code infrastructure (middleware and generic applications) and to fostering a vibrant community and business ecosystem. The OW2 Consortium hosts some one hundred technology projects, including ASM, Bonita, Chameleon, CLIF, DocDoku, Easybeans, Emerginov, Fractal, FusionDirectory, JOnAS, JORAM, JOTM, LemonLDAP:NG, Lutece, PetalsESB, Prelude, ProActive, SAT4J, Spagic, Spago4Q, SpagoBI, Talend Studio, Telosys, WebLab, XWiki.
