The CHOReVOLUTION Platform is Showcased at Paris Open Source Summit 2017 while Beta-testers are Invited to Join a Hands-On Workshop

IoT-enabled application DevOps professionals can discover the CHOReVOLUTION Platform on OW2 community booth C18/D19 at POSS 2017, and experiment it during a workshop.

Paris France, Dec. 6, 2017 - OW2, the global community for open source infrastructure software, is showcasing at Paris Open Source Summit 2017 the CHOReVOLUTION platform, a new IDRE (Integrated Development and Runtime Environment) to deliver dynamic and secure choreographies of services in IoT and Web service domains like Smart Cities, Smart Tourism and Smart Retail.

Visit **OW2 booth C18/D19 at POSS 2017, Dec. 6-7,** and ask for a demonstration of this innovative platform, a direct result of the European Union's Horizon 2020 research and innovation programme.

On Dec. 6 afternoon, in room Plateau 1, the CHOReVOLUTION Workshop will allow beta-testers to learn how to create standard BPMN2 diagrams to generate dynamic and secure choreography of services. Joining Amleto DiSalle, L'Aquila University Professor, and more IT experts, beta-testers will experiment the platform and check how they can use it in their environment.

"*With eight partners involved in the CHOReVOLUTION platform, we are providing front-end, back-end, and middleware components, along with tangible business cases in domains like intelligent transportation, energy savings, smart city and smart tourism*", explains Sébastien Keller, Project Coordinator at Thales. He will present the CHOReVOLUTION project at POSS 2017 during the **FLOSS Collaborative Innovation** session starting **Dec. 6 at 5:00pm,** in room Long-Métrage.

Try CHOReVOLUTION and win a drone!

IoT application developers are invited to try the CHOReVOLUTION platform, to evaluate its DevOps experience and to provide their feedback about it. Doing so **by 31 Jan. 2018**, they will automatically enter in a lottery to win a drone. Download the platform now: https://l.ow2.org/cpvm

For more information about the CHOReVOLUTION platform, launch the video overview, read the CHOReVOLUTION leaflet, and the platform documentation.

About CHOReVOLUTION

CHOReVOLUTION is an IDRE for innovative large-scale, IoT-enabled, service-oriented distributed applications. The project is developed by a consortium of eight partners and has received funding from the European Union's Horizon 2020 research and innovation programme. The CHOReVOLUTION software is publicly available through the OW2 community. More: http://www.chorevolution.eu/

About OW2

OW2 is an independent community dedicated to developing open source code OW2 is an independent industry community dedicated to developing open source code infrastructure (middleware and generic applications) and to fostering a vibrant community and business ecosystem. The OW2 Consortium hosts some one hundred technology projects, including ASM, Bonita, Chameleon, CLIF, DocDoku, Easybeans, Emerginov, Fractal, FusionDirectory, JOnAS, JORAM, JOTM, LemonLDAP:NG, Lutece, PetalsESB, Prelude, ProActive, SAT4J, Spagic, Spago4Q, SpagoBI, Talend Studio, Telosys, WebLab, XWiki.
